

A perfect fit for your switchgear needs?

Definitely.

UniSec is ABB's versatile new modular medium voltage switchgear platform for secondary distribution. Its development has been driven by the quest for the ultimate in safety, reliability, ease of specification and installation and sustainability. The result is the ideal combination of state-of-the-art air-insulated switchgear with years of experience, all backed by ABB's global support network. So whatever your distribution needs, from utility to industry, from transportation to cities, UniSec delivers the perfect fit. www.abb.com/mediumvoltage
